Another Ocean Stenmer Lust. The telegraph reports the loss of another ocean steamer, the Connaught, running between New York and Galway. She was built of iron, in the most substantial manner; but sprung aleak and then took fire. It is a noticeable circumstance that although there were six hundred persons on the steamer, not a life was lost. This speaks volums for the courage and conduct of the officers

Lost week Sanator Douglas, stump can-Loth; and calls attention particularly to the speech, in the following paragraph:

THE EXTERMINATOR.—The spreed of Judge Douglas, which we publish this morning, puts a complete the suguisher upon Sewie did theory of civilization. If proves that it Seward is right, twelve of the thirteen original Sextes were morbilized just that Seward, by

the part of Mr. Douglas and the News, we have reliable advices that Gov. SEWARD is not "extinguished;" that he came of "civilized parents," and that he himself may fairly be claimed among the "civilizad" people of the globe.

There is, however, an "irrepressible concontent that the "civilized world" and the free and independent people of the United States, should decide between the two "theories of civilization" advanced respec-

FORREX, in a late number of his Press, alluding to what Tuaddeus Stevens calls the "sheet-iron thunder" about a dissolution of the Union, in the event of Lincoln's election, thus apeaks:

The "Fusion" and Confusion party, who

are opposing Lincoln and liberty, have but a simple battle-cry left, and that is, "Save the Union." If they are really sincere in this invocation, which many begin to doubt, let them abandon their futile efforts at coalition and enroll themselves under the standard of the Republican party. The election and administration of Mr. Lincoln, will crush out the disunionists so effectually that they will not again be heard of for

DOUGLAS IN WISCONSIN .- The Democratio Committee have issued the following programma of Mr. Douglas' hurried tour thro' a portion of Wisconsin in search of his mother. We rather think that he will have no better luok looking after her here, than he had in Vermont, Maine, Connecticut, &c : Judge Douglas will arrive at Janesville on Friday next, at 1:15 P. TERRILLE ACCIDENT.—We are deeply pained to record a horrible accident which happened at the flouring mill of Messrs. Welts & Hill, about four o'clock Saturday aftermoon, by which Mrs. Hill, wife of I M. Hill, lost her life. As we learn the o'roumstances of the sad affair, they are these. Mrs. H. was passing by an upright shalt, which was revolving rapidly, situated in the second story of the building, when the wind blew her dress against it, which became entangled and carried her around, bitting her head against a partition, and some upright posts nearing her screams, ran to her assistance, and endeavored to tear her dress loose from the shaft, but was unable to accomplish it. He was carried around a number of times and thrown down, and considerably injured. Mrs. Hill was killed almost instantly, her head being shockingly mangled. She was one beloved and esteemed by a large circle of acquaintnose, who will deeply mount her sudden decease, and sympathise with her afflioted relatives in their great and irreparable loss.—Recine Daily Journal, October 8th.

Loss of Life.

Washington, Oct 5.

The New Orleans Picagume of the 2d reports the explosion of the steamer Bayon to the steamer Bayon to be dilled number of killed and wounded is unknown. Those known to be killed principally belonged to the boat and were negroes. There was a large list of passengers. As far as known the explosion of the La Belle House. The fish weighs 14 lbs., and was the first victim to a new spoon hook, presented to Mr. Fax by Mr. Allocation.

Hon, Luther Hanchett. The Republican nominee for Congress in he second district, will address the people at times and places below mentioned: Mauston, Tu-sday Octobe Friendship, Wedneeday

After leaving Hudson, Mr. HANGUETT will address the people of Eau Claire, Black River Falls, Prairie du Chien and Shullsburgh. At present he is unable to fix the

days on which he will be at these places. -The above mestings, unless otherwise desired, will be held in the evening. The local committees and the local press are desired to give immediate notice of the meetings at the several points respectively.

The New York "Fusion."

As last "fased," the New York Union ticket contains the names of 18 Douglas, 10 BELL, and 7 BRECKINEINGE men. The lenders of the three factions, careless of principle, but eager for the spoils, are making great efforts to judge the " rank and file" to swallow the dose. But the idea is revolting to the honest masses. Adopted citizans refuse to vote for the ten Know Nothings. Earnest Douglas men will not support the seven BRECKINKIDGE " disnulonats." While the real friends of Burckin RIDGE and LANE will not touch either the 18 Douglas " bolters," or the ten Exil Know Nothings. "Fusion," therefore, has become "confounded." The Know Nothing Douglas-Disunion ticket is doomed to cinct record of the past week's news, local, ignominious and overwhelming defeat,

The Denocharte Family.—We understand that Mr. Warner, late Register at the Sault St. Marls, who has just been removed, is largely behind in making his returns. We also understand that two other Pederal officers in Lake Experior are in a similar situstion, and that District Autorney Miller has received orders from Washington to causimence proceedings against alt of them. We shall hear more of these matters in due season. We are also informed that officior Davis at this port will certainly be removed, and that the heads of a number of interior postmasters are speken for.—Delroit Tribum, Oct. 6th.

The approach of "settling day" is playing the mischief with our Democratic Office holders. The prospect of having Republic CAN Auditing Officers at Washington, next year, strikes terror to their sonls. The need of a thorough reform in the Federal offices was never so great as now.

THE APPOINTMENTS OF CARL SCHURZ .-In answer to numerous applications for the trict the Republican Central Committee state that Mr. Schuzz has just completed an arduous tour in Pennsylvania and Indiana, where it was deemed by the National Com-Senators Sawand and Douglas, which is mittee that his services were more required than in Wisconsin. He will be at his home. in Watertown, from the 9th till the 12th inclusive, when he again goes East, to fill new engagements in New York, Connecticut and New Jersey. From the 24th inst., until election day, he will be in this State again,

antil this time a strong Democrat, presided two hundred and fifty eight feel, horizontal at a Republican meeting in that city on 17." Thursday last, and made a strong speech in BIGLER.

MANITOWOO COUNTY .- The Republicans of Manitowed County have made the following trong nominations:

Sherif - Wyman Murphy. Treasurer-Oscar Koch. Register-Henry Baetz. Clerk Sup -J. W. Thombs. Attorney-J. D. Markham. Surveyor .- C. Wimpf. Corener-J. Halverson. Assembly, 1st Dist .- J. L. Forbea.

2d Dist.-J. Stevenson. The R-publicans of Manitowoo county have good hopes of electing a portion, at the Merchants and Business Men of Milwauleast, of their ticket, and giving a heavy vote for LINCOLN and LIBERTY.

ADAMS COUNTY REPUBLICAN TICKET .-We learn from the Adens County Independent that the Republicans in that county have made the following nominations:

For the Assembly- Otia B. Lapham. Sheriff - Ezra Knight, Register - E. F. Bacon. Treasurer - Sath Thompson. Dist. Attorney-W. J. Kershaw. Clark Supervisors -- T. B. Marsden. Clerk Court - D. H. Quaw. Surveyor -- L. Torrey. Coroner - J U. Chandler.

The Independent endorses the ticket as a good one. It will doubtless be elected by a handsome mejority.

TERRIBLE TRAGEDY IN SGUTH CAROLI-NA-FORTY-EIGHT PERSONS POISONED.-The Cheraw (S. C.) Guzette of the 25th says: "A psinful rumor has reached our town, to the effect that a wedding party of forty-eight persons were poisoned last Wednesday or Thursday, near Cokesbury, in this State, of whom forty were dead.-The report comes in such a form as to render its probability painfully true-a letter from a lady of Cokesbury to her friend in Sump-

ter." _____ Death of Ashbel Willard, Governor of Indiana.

From the St. Paul Minnesotian, Oct. 3th. GOV WILLARD, of Indiana, who has been sojourning in St. Paul and vicinity for some well known broken constitution renders this event not altogether surprising, though it was unexpected just at this time, as he had been feeling much better latterly, and expressed hopes to his friends of being per-manently recruited by a residence in Minne-sots. The immediate occasion of his decease, now so sudden, is ascribed to congestion of

the bowels.

Gov. Willard, at the time of his death, was the incumbent of the office of Governor of the State of Indiana; and as a mark of of the State of Indiana; and as a mark of respect, therefore, to the sovereign State of which he was Executive, his body will be accompanied back to Indiana by Alexander Ramsey, Governor, and R. M. Rice, U. S. Senator of Minnesota; and by Major Cuilen, U. S. Superintendent of Indian Affairs, and W. M. Corcoran, Postmaster of St Paul.

Mrs. Willardie, distrements of the processes. Mrs. Willard's distress at her bereavement is so intense that fears are also enter-tained for her life, especially as her health

has previously been quite low. Another Steamboat Explosion and Fearful Loss of Life.

REMOVED .- W. H. SHERMAN, the Daquerrean artist, has removed his gallery to No. 16 Wisconsin street, Coccswell's new Block. The rooms have been fitted up expressly for this purpose, and are by far the handsomest of any Daguerrean gallery in the city. SHERMAN is an excellent artist and clever fellow-deserving of the liberal patronage which has been bestowed upon him since his advent among us. Give him n call.

fliot" between the systems and views of faintly shadowed forth in the paragraph of the News. Senator SEWARD is strong in the faith that FREE INSTITUTIONS, FREE SPEECH, FREE LADOR and FREE Soil will best pro mote the material interests and the perma nent prosperity and glory, of the American Republic. Mr. Douglas, on the other hand, holds-and the News heartily concurs in the opinion—that it is a matter of perfect is most needed. indifference " whether Slavery be voted up, or down :" and that "civilization" advances just as rapidly, under the influence of Slave, as under those of FREE LABOR. The issue between these two prominent political leaders is so plain. that he who juns may read. The question is one that needs no argument. The facts of History; the instincts of Hu manity; the experience of the "civilized" decrees of Justice, all teach the same great Truth, that LIBERTY is the life-giving element in every great nation, and that SLAVERY is the enemy of progress, the obstacle to "civilization," and the certain source of national decay and death. We are entirely

election, thus speaks:

We are not for Lincoln in this fight. We cannot say that we are helder for Canar nor for Antony, for we are for Druglas, and for him inquirely and sincerely; but is not all this sort of infinidation unworthy of American chileros and sensible weed. In it not disgraceful that mere traders in politics in the Southern states, and so vile a wretch, so unacruptious and remorables a knave in the free States, ones outtrify debased, privately and publicly, as the editor of the New York Herdal, and those afficiated with him, should be permitted to extretic a sort of terrorism over American citisens?

Fellow-countrymen, there will be no distinction. Merchanics and manufacturers of Philadephia, there will be no secession. What the enemies of the Republic in the South fear is, that the Northern people may put them to the test. Vote your own wentiments, rely upon the love that all the people of the United States, and the secues will violicate the experiment.

Oh, of all epitaphs, this is the dreariest to put over one's grave, be that grave on land or beneath seadeeps, 'anprofitable servant.'?

God often utters that over graves, doubtless, when surviving friends utter fatteries, and compliments tinged with falsehood.

What startling diversities of character are brought to light in such a colamity as this. How generosity, imperilling life for the rescue of others, stands in bennty beside aclifications, skulking to its raft, or boat or plank, reckless of others' safety. The Surning of the Connaught—Full Particulars

Boston, Oct. 9—9 P. M.

The brig Minnie Schaefer arrived to-day at 10 o'clock. She is about three hunsred tons burden and the standing room on her was completely covered by the rescued passengers of the Connaught. Mr. H. Whipple, of New York, a passenger on the Connaught, furnishes the following state ment as to the loss of that fine steam ship.

Passing the circumstances of the voyage from Galway, which port we left at 5 P. M. 25th ult., until about 8 P. M. of Saturday westwurdly, the wind blowing a mortherly gale, the ship hegan to roll to the larboard with a singular motion, going far down and keeping that way a long time, which caused some slarm.

Meantime the Captain was heard giving orders about steering, manning the pumps, &c. Firemen under the les paddle-boxes were observed whispering, and there were other indications that something was wrong. Considerable water was observed through the gratings; the engines soon after stopped for a while: after strenuous exertions by

the gratings; the engines soon after stopped for a while; after strenuous exertions by the Captain, Dutch and crew, the abip righted, and the wheels communiced turning, righted, and the whole schedule through when the passengers became more composed. The sea was rough, the wind blowing what shilors call an "ordinary null gale." Most of the passengers turned in but passed a restless night.

restless night.

FRIDAY, 8A. M.—The ship began to roll again with that shaggy motion, similar to the evening previous. The Captain and crew could neither tack nor wear the ship; soon after the engines stopped and steam sould not be raised in the boilers. The ship rolled frightfully to the larboard; the pumps were manned and a gang of men commenced bailing with buckets. At ten o'clock it was were manued and againg or men sommence bailing with brokets. At ten o'clock it was reported that the water was not gaining, but on the contrary the men and pumps were gaining on the leak, and if the wind would stiffen, we would reach Boston that night. But these hopes were soon changed to extreme terror, when the word based around in low sones—"the adip is on fire!—accompanied by the smell of burning wood. The fire appeared between the decks; ganga were immediately formed with pumps and buokets to extinguish the flames, dipping the water from the sea and passing it in buckets. As the fire gained, the boilers began to slacked work. All eyes were staring towards the horizon, in hopes to see some means of the starter of the sea and passing it is buckets.

By this time the fire had cut off all com-

Reveral false reports of recognizing signor were made; but at least we discovered a sair to the north word, and spon after another to the north word, and spon after another to the sestion in the o'clock that the vessel drewing sports had three masts, and the one west only two.

We soon found out that the latter was passing, while the other still neared, without she west energy and the three manifety and doubt, which kept us in extreme anxiety and doubt, showing that she observed the steamer's flag of distress which had been hoisted.

We then commenced to clear away and launch boats, which was a very difficult job, as the ship was lying almost on ker gide in the trough of the sea.

COMMERCIAL.

Tuesday P. M., October 9, 1860. A very large amount of money has been sent into the country during the last few days in return for the heary receipts of produce, and to-day the bunks were clearly presed to meet the wants of their customers.
The operations, in produce, however, having been comparatively light, the currency has been citedly used for advances on consignments, a large abare of the proceeds of which, when sold, will be again at the sposal of the hanks, and as the commission men tave held their receipts about as long as theupward endency of the market will warrant, we may expect a better supply of currency within a day or two. the initiators steps towards developing the natural advantages of Milwankee as the commercial centre of at least three-fourths of the great Northwest, it is 2 good time to look about us and see what we are still lacking in order to reap the full benefits to which our previous efforts entitle us. M!lwaukee, it is conceded on all hands, is the natural shipping point for the 216 EAST WATER STREET, aroducis of Wisconsin, Minnesota, and a large portion of Northern and Central Iowa, and also the distributing point for all the castern and foreign merc an dize consumed within that latitude. It is for the interest alike of Milwaukie, and the country West, Sorthwest and Southwest of Milwaukee, that she shit ald maintain this position. It is not in accordance with the laws of commerce that the products of the Northwest should be carried 1/22f a great shipping Largest and Best Selected Mock port like Milwaukee a hundred miles further south, to be reshipped, and then again carried back past our doors on its way to the scabbard; and consequently the effort to turn the course of Northwestern commerce from Milwaukee to Chicago has practically falled, as to have endeavored to show in previous articles, The same rule applies to merchandize shipped by the way of the lakes for the Northwest-and the lakes will forever remain the great channel of commerce be wan forever remain the great change of commerce be-tween the West and the Atlantic sea-board. While there is a great effort being made to divert the commerce of the Northwest from Milwaukee to Chicagoan effort that must inevitably prove as profitless as it is impracticable—the masses of the people in the country tributary to this city do not fully comprehend low much it is for their good to foster the commerce Miliraukee, and thus help to maintain and build up targe city as near their homes as possible, because during the existence of this competition between Milwankes and Chicage they have the privilege of shipping their produce a hundred miles further South at the same cost as to Milwaukee. But annihilate Mil-waukee as a competitor with Chicago, and would they not very soon have to pay additional, both for the transportation of merchandize and produce over that eductional two hundred unites which such a conflagencylwould add to the distance between them and the Atlantic sea board? Nothing is more certain, for rallroads or steamboats caunot do business for nothing, and the transportation of produce from Oshkosh, Fond do Lac, or any other place North or West of this city, to the seaboard via Chicago at the same rate as via Milwankee, is virtually carrying it 200 unites for nothing. It is far more consistent with the principles of commerce to see produce from the South west coming this wer, than Northwestern produce go ing by Milwaukee to Chicago, because in the former case it is all the time progressing towards. Its ultimate destination, while in the latter it is earried over a listance of one hundred miles, that has to be retraced before reaching an eastern market. To this fact, in a great measure, may be attributed the movement of grain toward our market from the southern part of this State and Northern Illinois, over the Milwaukes Chicago Railroad. Hence we find that business mes in all parts of the Northwest who have sagacity suough to understand these matters, are more desirous for refroad communication with Milwaukee than Colcago. We have an evidence of this in the succassiul efforts now being made to secure a direct rail-road to Milwaulest from a section of the State that has access to Chicago by the Northwestern Rallroad, and further evidence of the same in a letter from a prominent business man of Dubuque, Ia., now before us, arougly advocating the necessity of earrying out an enterprise that would have been completed long before this time but for the financial depression of the part three years, and which me hope ere long to see parried to a successful termination. We refer to the project of exceeding the Milwaukee, Watertown and Baraboo Valley Railroad, now completed to within 12 miles of Madison, from the latter point to Dubuque.

After recounting the difficulties experienced by

grain dealers of Dubuque in shipping wheat to our

"Laboring noder these disadvantages, therefore, I see hus little prospect of a trade of any considerable magnitude springing up between Mitwookee and Du-

buque, as long as the various railroad interests be-

tween the Mississippi and the lakes remain in their

present situation, though manifestly, such a trade would be vasily to the interest of both. And though

foreign to the subject matter of your letter, I connot

refrain from improving the present opportunity to al-lude to what has doubtless often occurred to you,

namely: the great want there is of a direct railroad

communication between our city and your own. This

the past ten years, and since all that stands in the

way of a consummation of this object, is the construc-tion of some 65 or 70 miles of road, (from Dubuque to

Madison,) and since a speedy return of the former

ommercial presperity of the West is now so surely

preshadowed, I cannot but think the present a favorable opportunity to agitate the subject snew. You are doubtless aware that the railroad interests

ation to Anomoso, a point 50 miles Southwest of here

will in a few months be completed to Marion, twenty

miles further in the same direction, and reaching the

alley of the Codar, at Cedar Fails, 110 miles West of Dubuque, and with its monificent land grant, will ere

Dubuque, and with its indicates it that grant, with or many years be extended to the Missouri.

As these (we enterprises progress, it becomes

question of some interest to roads. East of this point, as to what route to the Lakes the vast products of the

the Lakes, together with the advantages presented by fillwankee as a shipping point, I am full persuaded

that the bulk of the grale and other products center-ing acthis point, would reach the seaboard via Mit-

wankee; while at the same time, on account of the great saving in time and distance, all, or nearly all,

the merchandize resurning from the East via the Can-als and Lakes, destined for Dubuque and the country

west of here, would be re-shipped at Milwaukee in

stend of Chicago as at present. Another considera-tion of much importance, is, that this route would run

through the heart of the Wisconsin Lead mines, the
